Hydrogen Water Making Technology*

**WARRANTY: One Year Parts & Labor**

- Disclaimer: Product is not intended to diagnose, cure, treat or prevent disease. Seek medical advice if ill.**
- Never operate Generator without water in the bottle.
  - Keep USB Port sealed by plugging its cover back in.
  - Generator is shipped wet, remove plug before using.
  - Operate only with any type of potable drinking water.
  - Not for use with hot, carbonated or other beverages.
  - Always keep Generator moist by keeping Lid on.
  - Battery is charged when LED light stops blinking.
  - Do not place Generator unit in a refrigerator or cooler.
  - Do not soak or submerge Generator Unit under water.
  - Try to drink within 10 minutes of making H2 water.
  - Do not store to drink later, it will dissipate quickly.
  - To share water pour into a glass and drink in minutes.
  - Check waste chamber daily and empty any water there.
  - Use cold or room temperature water. Never use ice.
  - Doing more than 2 timed cycles may cause leaking and will not increase hydrogen gas PPM saturation levels.
  - Battery has limited life span and to prolong its life, drain the battery completely before recharging it.
  - Keep away from children, Pets, Heat and Flames.
  - Do not pull cable from wire or plug with wet hands.
  - Call for product support if you have any questions.

- To Set Up:**
1. Wash glass bottle and lid with soap and warm water.
  2. Unscrew Generator cover and remove and dispose rubber plug.
  3. Gently twist bottle on to generator track and tighten snug to seal.
  4. With bottle attached rinse out inside Generator with warm water.
  5. Fill bottle with clean drinking water up to bottle threads.
  6. Cap bottle with lid and insert USB cable into Unit USB Port.
  7. Insert other cable end to power plug and plug it into wall outlet.
  8. Charge battery 2 or more hours before operating machine.
  9. Battery charge will automatically shut off when fully charged.
- Power Button:**
- Power toggle switch has 3 positions with a BEEPING alarm.
- a. Press Once: 5 Minute Cycle (Blue Light)
  - b. Press Twice: 7 Minute Cycle (Green Light)
  - c. Press Third time: Machine shuts off.
- To Operate:**
1. Press power button twice to start a 7 minute cycle. (GREEN)
  2. After 7 minute cycle ends we recommend repeating this 7 minute cycle again to saturate the H2 level for highest benefit.
  3. Unit Beeps and power shuts off at the end of each timed cycle.
  4. Use 5 minute cycle to keep H2 water fresh while pausing.
  5. Remove bottle cap and drink from bottle within minutes.
  6. Operate on counter top to open bottom Oxygen/Ozone valve.
  7. Drink 4 – 6 bottles or more per day for maximum H2 benefit.
